## S-332 High Quality Compass

- Solid Metal body
- Gear head compass, for smooth radius setting and self-centering
- Hinged lead and needle legs
- Interchangeable needle
- Spigot size 3.5 mm , for interchangeable adapter and extension bar
- Max. Circle 0300 mm approx., with extension bar 400 mm approx.
- Surface : nickel plated / matt powder coated
- Basic material : Zinc (Mazak 3)
- Length : 150 mm

## S-333 High Quality Compass

- Solid Metal body
- Gear head compass, for smooth radius setting and self-centering
- Hinged lead and needle legs, with telescopic extension bar
- Interchangeable needle
- Spigot size 3.5 mm , for interchangeable adapter and extension bar
- Max. Circle $\emptyset 300 \mathrm{~mm}$ approx., with extension bar 400 mm approx.
- Surface : nickel plated / matt powder coated
- Basic material : Zinc (Mazak 3)
- Length : 150 mm

## S-442 High Quality Compass

- Solid Metal body
- Gear head compass
- Center wheel mechanism
- Hinged lead and needle legs
- Interchangeable needle
- Spigot size 4 mm , for interchangeable adapter and extension bar
- Max. Circle $\emptyset 325 \mathrm{~mm}$ approx., with extension bar 600 mm approx.
- Surface : nickel plated / matt powder coated
- Basic material : Zinc (Mazak 3)
- Length : 163 mm

## S-443 High Quality Compass

- Solid Metal body
- Gear head compass
- Quick Action setting center wheel mechanism
- Hinged lead and needle legs
- Interchangeable needle
- Spigot size 4 mm, for interchangeable adapter and extension bar
- Max. Circle $\emptyset 325 \mathrm{~mm}$ approx., with extension bar 600 mm approx.
- Surface : nickel plated / matt powder coated
- Basic material : Zinc (Mazak 3)
- Length : 163 mm

High Quality Compass and Precision Compases and Accessories

JT-224 Compass
Solid Metal body, Gear head compass for smooth radius setting and self-centering, Spigot size 3mm, for inter changeable adapter, Max. Circle 0260 mm approx., Surface : nickel plated / matt powder coated, Basic material : Zinc (Mazak 3), Length : 130mm

## JT-441 Compass

Solid Metal body. Gear head compass, Quick Action setting center wheel locking and release mechanism (patented mechanism) Interchangeable needle, Max. Circle 0325 mm approx., Surface : nickel plated / matt powder coated, Basic material : Zinc (Mazak 3), Length : 167 mm

## JT-443 Compass

Solid Metal body, Gear head compass, Quick Action setting center wheel Locking and release mechanism (patented mechanism), Hinged lead and needle legs, Interchangeable needle, Spigot size 4 mm , for interchangeable adapter and extension bar, Max. Circle 0325 mm approx. with extension bar 600 mm approx., Surface : nickel plated / matt powder coated, Basic material : Zinc (Mazak 3), Length : 167mm

JT-2242

- JT-224 Gear Head Compass (MCD : 260mm Approx.)
- Lead Box (2 mm Lead)

## GE0 901

- Solid Metal body
- Gear head compass for smooth radius setting and self-centering
- Pencil Gripping up to $\emptyset 12 \mathrm{~mm}$, Max. Circle $\emptyset 225 \mathrm{~mm}$ approx.
- Surface : nickel plated / matt powder coated
- Basic material : Zinc (Mazak 3), Length : 125 mm
- S-1101 Gear Head Compass and Divider
- Set square $45^{\circ}$ - Set square $60^{\circ}$
- Protractor $180^{\circ}$ - Scale 15 cms
- Sharpener - Eraser - Pencil

## SHARPENERTS Precision pencil Sharpeners

- Standard Graphite and Color Pencils 08.2 mm , sharpening angle $23^{\circ}$ (single hole sharpeners)
- Thick Color Pencil sharpening 0 10.2 mm , sharpening angle $30^{\circ}$ (double hole sharpeners)
- Rust free steel blade for smooth sharpening
